# PHAM QUOC HOANG

Full-Stack Developer

Ho Chi Minh City, Vietnam | 0971 955 144 | hoangpham2263@gmail.com | hoangpham.is-a.dev

## SUMMARY

Web developer with 2+ years of experience, focused on WordPress and WooCommerce, with Next.js for my own products. I turn Figma designs into fast, SEO-friendly websites and build custom features, data crawlers and admin systems for e-commerce, education and service businesses.

## EXPERIENCE

**HD TechLabs Solution** Jul 2026 – Present

*Software Engineer (AI Evaluation) — Freelance, Remote*

Freelance work on math and coding benchmarks used to evaluate AI models.

- Write and review advanced math problems with verified reference solutions.
- Build coding benchmark tasks with Docker environments and automated tests.

---

**Puramu** Feb 2025 – Jun 2026 · Ho Chi Minh City

*Web Developer — WordPress, WooCommerce, PHP, JavaScript, MySQL, Python, Next.js*

- Built custom, SEO-friendly WordPress themes from Figma for e-commerce, education and service sites.
- Built WooCommerce stores with product catalogues, search and online ordering.
- Built custom WordPress features with PHP, JavaScript, the WP REST API, Next.js and third-party APIs.
- Wrote Python crawlers to import data and migrated stores from third-party platforms to WooCommerce.
- Set up technical SEO with Rank Math and improved page speed and Core Web Vitals.
- Maintained and secured client websites, working with designers, QA and PMs to deliver on time.

**Selected sites:** Kim Quốc Tiến, Nhật Nam Home, GFC Security, Đức Trí Piano Boutique, Melody Preschool, EuroLife — see the full list on the portfolio.

---

**Meta Technology** Apr 2024 – Jul 2024 · Da Nang

*Backend Developer, part-time — Next.js APIs*

- Built APIs with Next.js to connect the frontend and backend.
- Maintained data flow between frontend and backend services.
- Improved API response times and fixed system issues.

---

**Lift Software Vietnam** Mar 2022 – Jun 2022 · Da Nang

*Backend Developer, part-time — Python APIs, unit tests*

- Built REST APIs with Python.
- Wrote unit tests to verify functionality.
- Worked with databases to store and query data.
- Fixed bugs and supported system maintenance.

## PROJECTS

**Hoàn Hời** · hoanhoi.com Aug 2026 – Present

*Creator & Developer — Next.js, PostgreSQL, Redis*

A cashback platform for online shopping, live in production.

- Built the full product with Next.js, PostgreSQL and Redis: user app and admin system.
- Integrated Shopee, Lazada, TikTok Shop and ACCESSTRADE to sync and reconcile affiliate orders.
- Designed the wallet and ledger flow for cashback, withdrawals and reversals.
- Deploy to a VPS with automatic database backups.

## SKILLS
